ALSO KNOWN AS

- Air Traffic Controller (ATC)
- Airport Air Traffic Controller
- Enroute Air Traffic Controller
- Flight Dispatcher
- Flight Service Specialist (FSS)
- Instrument Flight Rules Air Traffic Controller

MAIN DUTIES:

Air traffic controllers and related occupations perform some or all of the following duties:

- Control flow of air traffic within assigned airspace using radar monitors, radio and other communication equipment and visual references
- Issue aircraft takeoff and landing instructions to pilots and relay meteorological, navigational and other information to pilots in flight
- Provide pre-flight information concerning current and forecast weather conditions, radio frequencies, terrain, airports and related data to assist pilots in preparation of flight plans
- Check flight plans for completeness and accuracy and forward flight plans to air traffic services facility
- Analyze environmental conditions and assess aircraft for load and fuel capacity and other factors to determine flight routes.
