- Occupational Therapy Assistant

MAIN DUTIES:

Other technical occupations in therapy and assessment perform some or all of the following duties:

- Examine adult clients to assess hearing loss using diagnostic evaluation and electro acoustic testing
- Under the supervision of audiologists, administer tests such as pure tone hearing screening, impedance tests and noise level measurements using equipment such as audiometers and sound level meters to determine hearing thresholds of patients
- Assist speech-language pathologists and audiologists during assessment of patients
- Operate ophthalmic testing and measuring instruments to aid ophthalmologists in assessing patients' vision
- Under the direction of physiotherapists and/or occupational therapists, carry out treatment programs such as thermotherapy, traction, hydrotherapy and electrotherapeutic techniques to rehabilitate patients with various injuries or disabilities to maximize their ability to independently manage daily activities.
