- Computer Hardware Engineer
- Fibre-Optic Network Designer
- Hardware Circuit Board Designer
- Hardware Development Engineer
- Hardware Technical Architect
- Network Test Engineer

MAIN DUTIES:

This group performs some or all of the following duties:

- Analyze user requirements, and design and develop system architecture and specifications
- Research, design, develop and integrate computer and telecommunications hardware such as microprocessors, integrated circuit boards and semiconductor lasers
- Develop and conduct design verification simulations and prototype bench tests of components
- Supervise, inspect and provide design support during the manufacturing, installation and implementation of computer and telecommunications hardware.
