## CONSIDER A SKILLED TRADE

Discover the NB Teen Apprenticeship Program

The New Brunswick Teen Apprenticeship Program (NBTAP) is an industry-led pre-apprentice program for students starting in Grade 10 or 11 that gives students a head start on an exciting career in the skilled trades. Over two or three paid summer work terms, NBTAP Student Apprentices are coached and mentored by a skilled trades employer, learning practical trade and workplace skills.

Skilled trade pre-apprentice opportunities with employers throughout NB

 UP TO 3 PAID SUMMER WORK TERMS

## PRE-APPRENTICESHIP Preparing Students for Careers in the Skilled Trades

Starting in Grade 10 or 11, students can work for up to three summers as a skilled trade pre-apprentice. NBTAP Student Apprentices are currently working and learning these skilled trades and many more:

Auto Service Technician  
Carpenter  
Construction Boilermaker  
Construction Electrician  
Cook

Industrial Electrician  
Industrial Mechanic  
Insulator  
Machinist  
Motor Vehicle Body Repairer

Power Line Technician  
Scaffolder (Carpenter)  
Sheet Metal Worker  
Steamfitter-Pipefitter  
Welder

## CAREERS Connecting Employers to the Next Generation of Skilled Workers

NBTAP directly addresses employers' needs by ensuring students are preparing for in-demand careers. NBTAP matches training to the real labour market so skilled workers will be available to New Brunswick businesses in the future. NBTAP screens applicants and coordinates the selection process. Employers hire student apprentices and identify skilled trades mentors to coach and train in their workplace. NBTAP employers shape the next generation of skilled workers, fuelling long-term business success and keeping young New Brunswickers working at home.

If you're a Grade 10 or 11 student looking for a paid, hands-on working and learning opportunity, or a potential employer looking to become part of NBTAP, please contact us.
